Mangaung Metro Municipality—“Council Runner”

The FSIA is receiving numerous requests by professional architects (some situated in places other than Bloemfontein) for assistance with the collection of “stamps” from the various departments at the Mangaung Metro Municipality. These “approval stamps” include Centlec, Telkom, Health, Fire, et cetera.

Should you be aware of someone who might be willing to assist with the above at a negotiated rate, kindly forward their details to the FSIA as soon as possible!

UFS Department of Architecture RESEARCH SEMINARS: QUARTER 1, 2012

URBAN & HOUSING DEVELOPMENT

Urban & Housing Development

Southern Sun Cape Sun, Cape Town,
South Africa

15th – 17th February 2012

Urban and Housing Development, 15 - 17 February 2012, Cape Town, South Africa

Urban and Housing Development, 15 - 17 February, 2012
Southern Sun Cape Sun, Cape Town, South Africa

Urbanisation in most of Africa is moving at a very fast pace, especially **south of the Sahara**. Infrastructure and housing provisions, water & waste management, energy & other utilities supply shortages, traffic congestion, environmental health problems, limited green spaces, extreme poverty, social security and public safety problems place many burdens on people. With a consistent influx of people into African cities, there is a need for a central focus on sustainability, urban planning, regeneration, slum rehabilitation and low-income housing provision.

This **Urban & Housing Development** large scale event will be a one-stop platform that will encapsulate cutting-edge issues, strategic solutions, investment strategies and pertinent case studies in urban planning, infrastructure and housing development. A vision of this scale can only be achieved by implementing your ideas and experiences into action; so whether you are a driver or enabler towards urban and housing projects, you will find this highly anticipated **Urban and Housing Development** large scale event an excellent platform to network, exchange ideas, seek business opportunities and to tap into the experience of key industry leaders.

Tailor-make your own programme by selecting from any of these streams:

Day 1 and 2

Stream 1: Urban Planning & Management

Stream 2: Infrastructure Development

Staying on top of the rapid developments in the affording housing projects arena, this event will also be featuring an exclusive multi-streamed **Social Housing Day on 17th Feb 2012** to explore the dynamics of low cost housing development, inclusionary housing policies, funding options available, construction materials and technologies, design and sustainability and project management for the enablement of cross cutting collaboration between private and public sectors.

The streams allocated in the **Social Housing Day** include:

Stream 1: Innovative Materials & Technologies

Stream 2: Housing Finance

RIBA chartered members who attend this event can use it for CPD purposes as part of their annual obligation. SACAP Registered Professionals can claim CPD Category 3 credits.

This event is proudly supported by the **Cape Town Tourism**.

Certificate Course: Hands-On Supply Chain Management

20 -24 February 2012

During this five-day course delegates will begin to understand how a truly integrated supply chain creates value – for the firm, its supply chain partners, and its shareholders. They learn how to align supply, production, distribution and demand, and then, to run the supply chain as an integrated whole. They also experience the value of information sharing and coordination and develop a better understanding of how to leverage customer service, and how the total value chain has to be aligned to optimally satisfy the customer's need. Using sophisticated computerised simulation, a realistic business environment is created in which competing teams are challenged to run their own businesses and achieve their business objectives.

COURSE CONTENT

Day 1

Overview of general theory:

- Customer service
- Inventory management
- Purchasing management
- Operations management
- Warehousing/materials handling
- Transport management

Day 2 – 4:

Computerised supply chain simulation with coaching sessions throughout the three days as well as a site visit to expose delegates to the real life situation.

Day 5:

Conclusion and debriefing.

Course fee: R 9 000.00 per delegate – all course material and refreshments are included during contact days.

Presented in cooperation with Engage Leadership

Why CE at UP?

Continuing Education at University of Pretoria (CE at UP) offers career-focused courses for individuals and professionals. The entity's portfolio includes more than 400 certificate courses presented in association with recognised academics from the University of Pretoria.

What do we offer?

CE at UP offers both scheduled courses and customised in-house training.

Certification

A University of Pretoria certificate will be issued on successful completion of a programme. For quotations on tailor-made in-house training, contact quote.ce@up.ac.za.
